VIETNAM ECONOMY		1D (bps)	YTD (bps)	
Vnibor	0.95%	-2	82	- Statistics from the Ministry of Industry and Trade show that a number of Vietnam's export industries show signs of serious trade deficit. The main reason comes from the lack of supplies from supporting industries. This situation has lasted for decades, showing that many industries in Vietnam are empty, only becoming an "intermediate" stage of commercial services instead of production and supply.
