Currency moves were largely muted in the day after Christmas. The US dollar was trying to find a floor on Tuesday in holiday-thinned trade, pressured by signs that inflation in the world's largest economy is cooling. The dollar index languished near a five-month low of 101.42 hit last week, and was last at 101.65.

In the December 25 session, proprietary traders net bought VND483 billion, mainly including NAB VND70 billion, FUEVFVND VND46 billion, VHC VND44 billion, etc.
